EPCOM TRUSTED PARTNER

>>> *empowering the future of energy with excellence...*

Vision Statement!

To be a global leader and trusted partner of choice for delivering innovative, quality, safe, and sustainable solutions that exceed customer expectations.

Mission Statement!

To exceed customer expectations, drive sustainable growth, and deliver value through innovative solutions, exceptional quality services, and an unwavering commitment to safety, social responsibility, and environmental stewardship.

Our Core Capabilities:

- ▣ Engineering Design Solutions.
- ▣ Procurement & Supply Chain Management
Fabrication & Construction Services Commissioning & Start-Up Services.
- ▣ Operation & Maintenance (O&M) Services
Instrumentation, Control & Automation Systems.
- ▣ Technical & Manpower Supply.
- ▣ Training & Consultancy Services.
- ▣ Project Management.
- ▣ Marine Support Services.

who we are!

Digital Energy & Integrated Services Limited (DEISL)

is a proudly indigenous Engineering, Procurement, and Construction (EPC) company delivering integrated project solutions across the oil & gas, energy, marine, and industrial sectors.

We provide end-to-end lifecycle services from conceptual studies and detailed engineering to construction, commissioning, operations, and long-term asset support. Our delivery model integrates technical expertise, strict compliance, and operational efficiency to ensure safe, timely, and cost-effective execution.

Core Strengths

- ▣ Multidisciplinary Engineering Capability.
- ▣ Integrated EPC Project Execution.
- ▣ Strong Nigerian Content Capacity.
- ▣ Experienced & Certified Technical Workforce.
- ▣ Compliance with International Industry Standards.

DEISL is well-positioned to deliver consistent value. At Digital Energy, we are committed to customer satisfaction, operational excellence, and responsiveness in all our engagements.

Our Partners

DIGITAL ENERGY AND INTEGRATED SERVICES LIMITED

about Us!

Digital Energy & Integrated Services Limited (DEISL) Since our establishment in 2015 with a modest beginning in Marketing, Supply & Trading of Petroleum Products, we have grown into a trusted EPC and asset lifecycle solutions provider in Nigeria. Our services span engineering design (FEED & detailed), procurement and supply chain management, fabrication, construction, plant maintenance, Instrumentation, Control & Automation Systems, training, and marine support services. With strong local content capacity and an experienced technical workforce, we deliver projects that strengthen operational efficiency and long-term asset reliability.

Our Team & Leadership & Experience Focus

Our strength lies in delivering integrated **EPCOM** and marine solutions supported by digitalized, end-to-end energy life cycle services. From petroleum trading and processing to logistics, storage, and regulatory compliance, we execute complex projects with agility and precision. Operating across Nigeria and West Africa, we uphold world-class standards in engineering and operational performance. Guided by experienced industry leaders, our team ensures disciplined project management, collaboration, and reliable delivery.

Our Services

Engineering Solutions

'Fit to Purpose' engineering solutions with a technology focus and specialized design & engineering expertise.

Digital Energy's engineering team delivers technically robust, cost-efficient, and standards-compliant solutions.

- ▣ Conceptual & FEED Studies.
- ▣ Detailed Engineering Design.
- ▣ Process & Mechanical Engineering.
- ▣ Civil & Structural Engineering.
- ▣ Electrical, Instrumentation & Control (E&I) Design.
- ▣ Brownfield Modifications & Revamps.
- ▣ As-Built Documentation & Technical Audits.

The Group is supported by its home offices in Lagos, Port Harcourt, Calabar and Abuja Nigeria.

Procurement & Supply Chain Management

We ensure quality materials and equipment are delivered on schedule and within budget with keen focus on Cost Optimization, Schedule Control and Quality Assurance

- ▣ Vendor Prequalification & OEM Sourcing.
- ▣ Equipment & Bulk Material Procurement.
- ▣ Expediting & Inspection Services.
- ▣ Logistics & Customs Clearance.
- ▣ Material Management & Traceability Systems.

Our Services

Fabrication & Construction Services

At our state-of-the-art fabrication yard located at Digital Energy Close, KM 3 Igboeche road, by Eleme Junction, Port Harcourt, we operate a fully equipped modern machine shop fitted with the latest fabrication and machining equipment. Our facility includes a dedicated painting and blasting shop, secure warehouses, structured storage facilities, and a massive lay down area designed for efficient material handling and heavy equipment staging. Currently serving major IOCs and NOGs across Nigeria, our yard is built to deliver precision, speed, and world-class quality across all fabrication and construction projects.

Fabrication Capability

- ▣ Structural Steel Fabrication.
- ▣ Piping & Spool Fabrication.
- ▣ Skid & Modular Unit Assembly.
- ▣ Pressure Vessel Installation.
- ▣ Mechanical & Civil Works.
- ▣ Tank Construction & Maintenance.
- ▣ Onshore & Offshore Field Execution.

Construction Services

- ▣ Mechanical Installation.
- ▣ Civil & Structural Works.
- ▣ Tank Construction & Rehabilitation.
- ▣ Onshore & Offshore Field Execution.

Commissioning & Start-up Services

We delivers structured Commissioning and Start-up solutions that turn completed projects into fully operational facilities. Using a coordinated, multi-disciplinary approach, we manage:

- ▣ Mechanical Completion Management.
- ▣ Pre-Commissioning (Flushing, Hydro testing, Loop Checks).
- ▣ System Integration & Functional Testing.
- ▣ Performance Verification.
- ▣ Start-Up Support & Handover Documentation.

Operations & Maintenance (O&M) Services

Our Operations & Maintenance (O&M) services ensure safe, efficient, and uninterrupted operations. We deliver preventive and corrective maintenance, plant shutdowns and turnarounds, asset integrity management, reliability improvement, and E&I automation support to minimize downtime and optimize performance such as:

- ▣ Preventive & Corrective Maintenance.
- ▣ Plant Shutdown & Turnaround Services.
- ▣ Asset Integrity Management.
- ▣ Reliability & Performance Optimization.
- ▣ E&I Maintenance & Automation Support.
- ▣ Drone inspection services.

Electrical, Instrumentation & Automation

Our Electrical, Instrumentation & Automation services are designed to power, control, and optimize industrial operations efficiently from.

- ✚ Power Distribution Systems
- ✚ Control Panel Installation
- ✚ PLC & DCS Integration
- ✚ SCADA System Deployment
- ✚ Calibration & Loop Testing

we ensure seamless system performance. We also carry out precise calibration and loop testing to guarantee accuracy, safety, and reliability across all facilities

Technical Manpower Supply

Digital Energy & Integrated Services Limited (DEISL) provides reliable and flexible technical manpower to support operations across oil & gas and energy sectors. We deploy certified professionals for projects of any scale, ensuring safe and timely execution.

Key Offerings

- ✚ Provision of experienced, certified professionals for various project needs.
- ✚ Onsite supervision and technical support.
- ✚ Short- and long-term staffing solutions.

Project management

Our team provides comprehensive project management services that drive successful outcomes for onshore and offshore projects.

Key activities:

- ✚ Project planning & risk assessment.
- ✚ Procurement, construction & execution.
- ✚ Commissioning & operational readiness.
- ✚ Maintenance, closeout, and regulatory compliance.
- ✚ Cost Management & Control.
- ✚ Stakeholder Management & Communication.
- ✚ Construction Management.
- ✚ Installation & commissioning Management).

Marine Services:

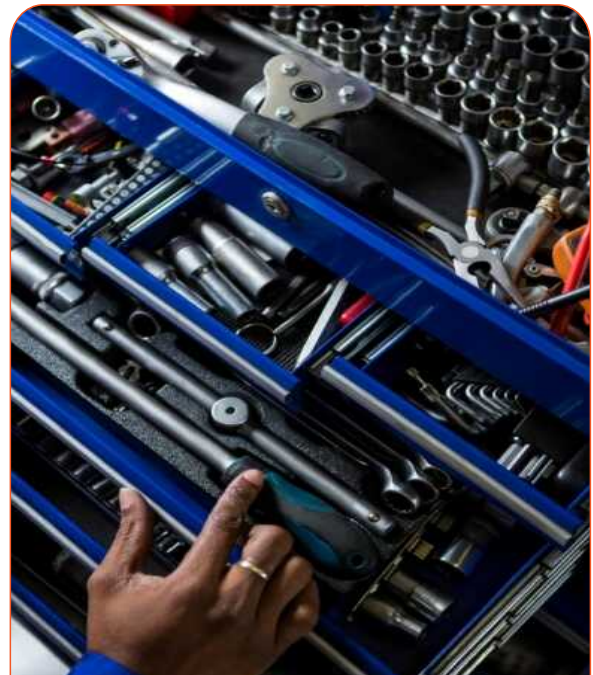

Digital Energy & Integrated Services Limited (DEISL) is a trusted partner for marine solutions, operations management, consultancy, and ship-to-ship handling:

- ✚ Marine Logistics & Vessel Support
- ✚ Offshore Supply Coordination
- ✚ Supply Chain Solutions

Training & Consultancy Service

We empower organizations through practical training and expert consultancy. From technical and safety programs to competency development and management systems advisory, we help businesses enhance performance, build skills, and achieve operational excellence across all sectors

- ✚ Technical Competency Development
- ✚ HSE Training Programs
- ✚ Quality Management Systems Advisory
- ✚ Regulatory Compliance Support
- ✚ Nigerian Content Compliance Advisory

Specialized Services

Project Control

Cost Control

Project Risk Management

Corrosion Control – Coating Services

We help protect your assets and infrastructure with advanced corrosion prevention and coating solutions.

Our services include:

- ▣ Heat-resistant coatings to prevent Corrosion Under Insulation (CUI)
- ▣ Passivation and restoration of stainless steel materials
- ▣ Passive fire protection (PFP) and thermal intumescent coatings
- ▣ High-pressure hydro-jetting, blasting, and cleaning (scaffold and rope access supported)
- ▣ NDT etc.

Valve Supply and Services:

We supply valves from leading global manufacturers.- We provide

- ▣ valve repair,
- ▣ refurbishment,
- ▣ and 24/7 emergency breakdown assistance.

Topsides and Subsea Maintenance:

Our experts inspect, repair, and maintain offshore oil and gas installations, keeping production facilities, utilities, living quarters, control systems, and helidecks in optimal condition. We focus on reliability, safety, and operational excellence

- ▣ We inspect
- ▣ repair,
- ▣ maintain offshore oil and gas production facilities.-

Our services cover production facilities, living quarters, control systems, and helidecks.

CONSTRUCTIONS

Facility & Equipment List

Our fully accredited Fabrication Yard is one of the most equipped facilities in Nigeria, delivering high-capacity structural, piping, and machining solutions. The complex comprises a modern three-floor office block with conference rooms, training facilities, medical bay, engineering workstations, secure IT systems, and dedicated client spaces.

Operational areas include a 540m² fabrication workshop (3,000 tons/month structural output), 525m² machine shop certified for OCTG and threading services, coating and blasting shop, covered warehouse, gauge room, and gas rack station. With 5–20 ton overhead cranes, dual generator and grid power supply, and 24/7 CCTV and armed security, the yard guarantees reliability, safety, and operational excellence.

Our equipment List

- ✓ 1 No of 130 tons Mobile Crane
- ✓ 1 No of 100 tons Mobile Crane
- ✓ 1 No of 4 tons Forklift
- ✓ 1 No of 10 tons Forklift
- ✓ 1 No 12 tons Self-Loader
- ✓ 2 Nos Flatbed Trailer
- ✓ 3 Nos 400 CFM Compressors
- ✓ 3 Nos of CNC Lathe Machine
- ✓ 2 Nos of Manual Lathe Machine
- ✓ 1 No of Buckling Machine
- ✓ 1 No of Vertical Pillar drilling
- ✓ 1 No of Radial Milling/Drilling Machine
- ✓ 8 Nos of Diesel Welding Machine

Storage areas on Site

- ✓ Total Uncovered Yard Area (m²) = 9,665 Square Meters.
- ✓ Total Covered Area (m²) = 1,975 Square Meters.
- ✓ Total Area for outside storage and laydown (m²) = 4,500 Square Meters.
- ✓ Total Area for Covered/Enclosed Storage (m²) = 360 Square Meters.

Why Choose Digital Energy?

Global Reach

Strong international partnerships for seamless project execution.

Innovation & Compliance

Emphasis on risk assessment, safety & regulatory adherence.

Strong Infrastructure

Cutting-edge fabrication yards, warehouses & offshore support facilities.

Commitment to Excellence

Delivering sustainable, efficient & cost-effective energy solutions.

Partner With Us

Whether you're looking for turnkey energy solutions,
advanced project management, or digital
